Thursday, October 11:

8:00am (GTCC Ballroom)

Technical Exhibition and Breakfast Buffet

Sponsored by: OPEN

9:00am (GTCC Room 317)

Political Savvy 101

Speaker: Patricia Hughes, Owner, Trillium Leadership Consulting

The term “being political” often conjures images of manipulative or oily individuals’ smarming through the work day. It’s time to redeem that term because being politically savvy is an important set of skills for navigating the “culture you swim in” and getting better results at work. This session will explore the four key political savvy skills that can help you get along better, get promoted or work smarter. Participants will have the opportunity to assess strengths and learning opportunities in this often-overlooked leadership capacity

CONFERENCE AGENDA

9:00am (GTCC Rooms 315/316)

Legionella: How to Avoid an Outbreak and What to do if Your Party is Crashed

Speakers:

Richard Newton, CHFM, Director, Facilities Engineering – Catholic Health Initiatives, Bremerton, WA

Beth Schmidt, Account Manager – Nalco Water

Maile Akina, Water Security Solutions - LiquiTech

Several hospitals in Washington State have experienced the occurrence of legionella in their water systems. Richard will provide a real-world case study from his experience and will collaborate with Beth to address tactics for prevention.

10:00am (GTCC Ballroom)

Technical Exhibition and Beverage Break

10:00am – 1:00pm

Spouse Event

Lemay Car Museum Guided Tour

Space is limited RSVP today

Sponsored by: McKinstry, The Parts Works, ATI Restoration & PSF Mechanical

10:30am (GTCC Room 317)

2 TWEET or NOT to TWEET

Speaker: Patricia Hughes, Owner, Trillium Leadership Consulting

You have something important to communicate to the folks at work. Do you: email, phone, Skype, text, tweet, post, meet in person, host a webinar, hire a blimp? There are so many ways to communicate, and so many of them can be confusing or just plain wrong! This workshop will drill down on five things to think about when arranging your message for best impact, and how to match your important message with the right method for high impact and reliability.

10:30am (GTCC Rooms 315/316)

CMS Anti-Ligature Requirements and Safe Places

Speakers:

Angela Naylor, MSN, RN – Chief Nurse Executive, Behavioral Health, Multicare Health System

Kristina Lewis, MSN, MHA, RN- Accreditation and Regulatory Affairs Manager, Multicare Health System

Learn about the most recent CMS anti-ligature requirements and best practices for creating a healing environment while improving environmental safety for those we serve. Tips and recommendations will be provided. This session includes an opportunity to ask questions and seek feedback from a psychiatric clinical leader and a regulatory and accreditation specialist.

11:30pm – 12:45pm

12:45pm – 1:00pm (GTCC Ballroom)

Overview of Afternoon Building Tour

1:00pm (GTCC Rooms 315/316)

2050: The Energy Picture in Washington State

Speaker: Jim Lazar, Senior Advisor – The Regulatory Assistance Project

Health care facilities are huge users of energy. How will the energy supply situation in Washington change over the next three decades? What changes in energy use will be economical? How can health care facilities take advantage of lower-cost renewable energy, while assuring reliable provision of needed services.

CONFERENCE AGENDA

1:00pm (GTCC Room 317)

Gearheads Unite: The Latest in Tech Tools of the Trade.

Speaker: Jacob D'Albora, FMP, LEED AP – Director of BIM – FM Services, Associate VP, McVeigh & Mangum Engineering

The design industry uses BIM (building information modeling) technology every day to create more efficient workflows during the design and construction of buildings. Learn about the technologies that are being deployed including virtual & augmented reality, drones, real-time sensors and data collection. These technologies do not stop at the end of project completion, participants will also learn how these technologies will grow into the world of operations and affect every part of a building lifecycle.

2:00pm – 2:30pm

Beverage Break

Sponsored by: Specified Technologies Inc. & Stantec

2:30pm (GTCC Room 317)

Impressions of a Joint Commission Surveyor

Speaker: Jeff Fleming, MBA, CHFM, CHSP, Director of Facilities, Engineering, Construction- Overlake Medical Center

Jeff has served as a Life Safety Survey for the Joint Commission while holding down his “day – job” at Overlake Medical Center. Hear from Jeff’s unique perspective what impacts his impressions of a hospital during a survey visit.
