Join WSSHE!

WSSHE is made up of healthcare engineers, facility directors, and companies that provide products and services to hospitals.

There are currently three chapters in WSSHE, the Puget Sound Chapter (incorporating all of Seattle and NW Washington); the Southwest Chapter (all of western Washington from Auburn to Vancouver), and Eastern Chapter (everything east of the Cascade Mountains). Once you join WSSHE, you are entitled to participate at any chapter meeting.

Scholarships

_Pete Peterson:_ The purpose of this scholarship fund is to assist WSSHE professional members to attend the semiannual symposium and the annual conference.

_Mac McKenzie:_ Open to professional members wishing to further their education. This fund covers expenses for healthcare related educational and certification classes. There are (6) $750 scholarships available each year.

As a 501(c) (6) non-profit corporation, WSSHE is a professional organization and does not have any employees of its own. Our work is made possible by volunteers and through contracted administrative support provided by Association Management Inc. (AMI). To contact WSSHE, you may write, call, or send us an e-mail.
The Washington State Society for Healthcare Engineering (WSSHE) is an action-oriented, professional association that offers quality, affordable benefits to its members.

These benefits include:

- timely educational programs
- access to peers and associates for information and support
- regulatory advocacy
- self-development

The profession of healthcare engineering is constantly changing and we must embrace the challenges of each new day. WSSHE meets the needs of its members by advancing the profession, building upon a strong alliance with its national association and maintaining an effective organization. WSSHE has built a strong reputation for lasting quality and professionalism. All members of the healthcare facilities management team can take advantage of the WSSHE network to reach new levels of achievement.

WSSHE is an affiliated Chapter of the American Society for Healthcare Engineering of the American Hospital Association. WSSHE professional members and associate members include people actively working within a healthcare engineering department, architects and engineers, and suppliers to the healthcare engineering profession.

Join WSSHE today to share in the experience and network of over 700 professionals working to improve the quality of healthcare in Washington State.

Benefits to Your Organization

- Increase your efficiency and productivity by keeping your staff aware of best service practices.
- Identify your organization’s strengths and weaknesses through informal benchmarking and collaboration.
- Reduce liability risks by keeping staff informed of important issues and pending legislation that impacts the environment of healthcare.
- Learn about new, cost-effective products and services for meeting your organization’s diverse needs.

Benefits to the Individual

- Broaden your skills and knowledge of areas related to healthcare facilities management.
- Network with peers across Washington and throughout the nation.
- Obtain recognition for Professional Excellence through state and national certifications.
- Engage in leadership development opportunities.

About WSSHE

Organized in 1973, the Washington State Society for Healthcare Engineering (WSSHE), is a not-for-profit, incorporated association dedicated to serving and promoting the health care engineering profession.

Our vision is to be the leader in providing timely technical information and management growth to our members through education, peer networks, and relationship building with suppliers of health care services and products to better prepare ourselves for managing the health care environment.
